SHIANTAL BOROWSKI

Web Developer | Manager

👤 Profile

I bring a diverse skill set in digital marketing, patient care, and web development. My experience ranges from executing online strategies and managing patient care operations to developing back-end modules with HTML, CSS, PHP, and JavaScript. I'm adept at streamlining office tasks, supporting teams, and building efficient web solutions.

💼 Work Experience

2022 – 2024

Pittsburgh Technical College
Digital Marketing Manager

As a digital marketing manager, I developed and executed online strategies to promote our brand, leveraging social media, email, and paid ads. I also analyzed performance metrics to optimize campaigns, drive engagement, and increase conversions.

2021 – 2022

UPMC Magee-Womens Hospital
Patient Care Technician | Health Unit Coordinator (HUC)

As a Patient Care Technician and HUC at UPMC, I provided direct patient care, assisted with daily activities, and supported medical staff. I also managed administrative tasks like scheduling, patient documentation, and communication to ensure smooth unit operations.

2020 – 2021

Huemor
Web Developer

As a back-end web developer, I created and optimized modules using HTML, CSS, PHP, and JavaScript. I worked closely with cross-functional teams to troubleshoot issues, improve website functionality, and ensured seamless integration with front-end elements.

2017 – 2020

The Church Online, LLC
Front-End Web Developer

As a front-end web developer, I designed and built responsive websites, creating interactive and user-friendly experiences. I collaborated with teams to implement front-end features, troubleshoot issues, and optimize performance for various devices.
